To print to the edge after final cutting, (FULL BLEED) you must extend your image area at least thru the **CYAN** box.
Any text or imagery will be cut off of the final piece if inside the **CYAN** box.

Keep ALL text within **MAGENTA** border to insure your text will not be trimmed

Please make sure all imagery and/or text is at least 300 dpi
for best results keep as close to 600 dpi as possible.

You **MUST** remove this layer or it will be printed!
